Data Analyst with 8+ years of experience across FinTech, financial operations, and retail production. Experienced in client collaboration, requirements gathering, and end-to-end project management, translating business needs into effective technical solutions. Leverages advance analytics with emerging technologies to build scalable solutions, optimize processes, and deliver measurable business impact.

## Professional Experience

### Web Developer & E-Commerce Consultant
***Self-Employed | Remote, US***

*June 2026 – Present*

- Collaborate directly with clients to translate business requirements into functional, visually engaging websites.
- Utilize traditional development platforms and AI-powered website builders to develop, deploy, and maintain web applications.
- Integrate e-commerce functionality and third-party fulfillment solutions to streamline order processing and automate fulfillment workflows.
- Manage domain registrations, DNS configurations, SSL certificates, and website migrations.

### Accounting Coordinator
***Blue Sage Accessories, LLC | Carlsbad, CA, USA***

*May 2025 – May 2026*

Brand licensing company managing the production and distribution of lifestyle brands, including RVCA, Billabong, Quiksilver, Roxy, and Volcom.

- Prepared weekly cash flow reports, sales forecasts, and financial dashboards to support executive decision-making.
- Managed vendor payment planning, accounts payable, and financial communications.
- Designed and implemented a streamlined sales commission process, overseeing monthly commission calculations, reporting, and reconciliation to ensure accuracy and efficiency.
- Leveraged AI-assisted tools, including Claude, to streamline reporting workflows, automate data analysis, and improve operational efficiency.

### Lead Data Analyst
***Insight Global (Amentum Project) | Remote, USA***

*December 2023 – May 2025*

- Led a team of five data analysts performing payroll and HR data quality audits ahead of a major data migration.
- Audited 35,000+ aerospace and defense contractor records within a six-month delivery timeline.
- Reduced payroll discrepancies by 15% through systematic validation and correction of data inconsistencies.
- Reduced organizational risk exposure by 25% by ensuring payroll and HR data aligned with contract terms.

### Operations Data Analyst
***N26 Bank | Berlin, Germany***

*July 2021 – July 2023*

- Supported analytics initiatives across Banking Operations, Financial Crime, Risk, Security, and Marketing.
- Led a time-series forecasting initiative improving onboarding demand planning by 7%, generating €150K+ in annual operational savings.
- Designed a risk-scoring model preventing €2M+ annually in fraudulent transactions and saving €280K per year in tooling costs.
- Led the Operations dbt transformation, improving data pipeline efficiency, reporting accuracy, and analytics scalability.
- Delivered SQL and BI training for non-technical stakeholders, increasing self-service analytics adoption.

### Financial Crime Operations Analyst
***N26 Bank | Berlin, Germany***

*March 2019 – July 2021*

- Conducted complex transaction investigations and enhanced due diligence reviews.
- Served as SME for the FICO Tonbeller transaction monitoring system.
- Improved monitoring efficiency by 30%, improved compliance report accuracy by 40%, and reduced filing time by 15%.
